

KRUGER

# Kruger Ventilation Industries India Private Limited

<https://www.indiamart.com/kruger-ventilation-industries/>

Manufacturer of industrial fans for hvac, centrifugal fans and domestic fans, ventilation fans, blowers, tube axial, ccd, kitchen exhaust.

## About Us

Established in Singapore since 1985, Kruger Ventilation is a joint venture between Comod-Aire Holding of Singapore and Kruger Holding AG. Kruger specializes in the manufacturing of dehumidifiers, humidifiers, clothes dryers and a full product range of axial fans and ventilators that was launched in Asia. Currently Kruger established 15 business units in Asia Pacific Region. With our wealth of knowledge and know-how, Kruger believes in creating value for customers simply by understanding their needs and delivering expectations. On this website, we are proud to present to you our products that are of high quality, competitive in pricing and of international standards. However, we will not stop here; we will be constantly seeking ways to continue providing our customers with good quality service and products. We recognise our customers importance and their requirements as one of our key strategy to achieve better customer service. To propel this ambition further, Kruger Research team has been launched to engineer advanced fan systems to expand its range of ventilation systems to provide a wider selection. Our team of engineers is determined to research and develop the most effective solution to meet our customers ventilation needs. Our success lies in our team of dedicated staff, excellent management and good research facilities. Our ambition to establish Kruger as a regional leading ventilation supplier had remained focused and undisrupted. A customer perspective " Kruger...
