About Us

Krushi Agro Technologies was established in the year 2013. We are a leading organization, engaged in manufacturing and marketing of a wide range of micro-nutrient fertilizers. We are following latest quality standards and laws of nature while manufacturing our range of products.

Our Quality Assurance Program is a combination of system monitoring and laboratory testing to assure the quality of micro-nutrient fertilizers that we offer. As we strive to achieve the highest position in the production of our range of products it is finished within specified time frame.
