Over the last 25 years, since its inception, KPT has kept pace with change. An in-depth understanding of changing customer requirements has guided us into delivering world-class quality, in the manufacturing and marketing of electric power tools.

About Us

Over the last 25 years, since its inception, KPT has kept pace with change. An in-depth understanding of changing customer requirements has guided us into delivering world-class quality, in the manufacturing and marketing of electric power tools.

The story of KPT goes further back. It was founded in 1976 as a Joint Venture with Black & Decker, USA. The first sign of radical change occurred in 1993, when KPT celebrated its independence.

Today, our state-of-the-art plant at Shirol, Maharashtra, specializes in manufacturing Electric Power Tools, Spares, Control Motors and Blowers.

Over the years, our quality products, supported by our sincere service has helped us garner the faith of many discerning names, as loyal customers.

But for us at KPT, that not a reason to celebrate, but to reinvent ourselves. So that we can address the rapidly changing demands of the 21st century.
