We are providing civil engineering, computer engineering, architecture, marketing, legal, financial advising services etc.

About Us

Kumud Enterprises (KE) is a construction company registered by government and formed by individuals who are professionals in various walks of life like civil engineering, computer engineering, architecture, marketing, legal, financial advisors etc. KE started its operation in May 2009 informally by the help of people with different background but working under one platform to give better services to the customers in the field of construction. These past few years have seen the company earn a remarkable reputation and trust for dedicated services. Currently KE is providing its services in Bangalore, Karnataka (India) and is in the process of expanding its services to other places also. KE firmly believes in customer satisfaction and provides end-to-end solutions in the field of construction. It meets its customer needs by its honest and professional approach with a philosophy that no work is small work. The bottom line? We're here to ensure that you get the house you've always dreamed about. Our intention is to provide that ultimate product to our customers ensuring quality in design and construction, while upholding the aesthetic appeal along with the maximum efforts to remain environment friendly homes. Our skilled team of workers and other professionals ensure superior quality standards during every stage of work.
