About Us

Who are we

We are a Mumbai based Tea Manufacturing Company which specialises in manufacturing all kinds of tea products. We have a manufacturing unit at Bhiwandi near Mumbai. Over the years we have invested in state-of-the-art blending machines which have capacity to blend 3.75 tons of tea every hour which are important because they remove metals like iron filings, stapler pins, iron nails etc and also remove pieces of plastic liners and pieces of threads in a 3 stage filtration process to achieve 100% filtration accuracy. Recently we installed Four-Line-Seal high speed packing machinery too.

We work as:

- Private label tea manufacturing company - White label tea manufacturing company - Contract Manufacturing of all tea products - Dropshipping of all tea products - Sell through our 4 brands Peeo G, Ratnadeep, Tejdeep and Lemor.

In addition to being a traditional tea manufacturing company we are also a:

- Green Tea Manufacturing Company - Ice Tea Manufacturing Company - Tea Premix Manufacturing Company - Coffee Premix Manufacturing Company

We also install, maintain and supply premixes for Tea Vending Machines and Coffee Vending Machines.

Feel free to contact us to get any type of guidance, information and quotation.
