About Us

Established in the year 2007; Lakshmi Engineering Works is engaged in offering a complete range of generator repair services. We deal with brands which include Ashok Leyland, Cater Pillar, Sonalika, HMT, Eicher and Cummins Generator. We provide our repairing services by using quality equipments that are procured from trustworthy vendors in the market. All our services are appreciated by our customers because of the cost effectiveness, flexibility and timely execution. We have been able to establish a satisfactory client base across Hyderabad. We are a client centric organization. All our services are rendered by proficient engineers who are having vast knowledge in repairing and maintenance of generators. They can easily fix any problems. We ensure that our workforce provides personalized services to the customers. Our professionals work in tandem with each other so that they can execute the task in less time. With the support of our manpower; we have gained a reputed name in the competitive market. With our repairing services we ensures that we enhance the performance and functional life of the generators. We provide our services to the customers at affordable prices.
