Having a team of dedicated professionals, who work with full dedication and have the requisite expertise for completing the work schedule in a given time frame. This has helped us to gain strong market goodwill and vast client base. Our world-class quality machines are known among our customers for their precision-engineered finishes.

Bandsaw Machine is a primary need for any machine tools industry. because “ cutting “ is a primary operation on “metal” for manufacturing product. After cutting of metal into required length, one can do further process of “turning, shaping, grinding, milling or drilling”. So at present in boom area of steel industry, there is boom in demand of metal cutting bandsaw machine also. Because as the sell item production increases, there is natural chance of increasing demand for cutting these steel in large quantity. “Maxmen“ brand horizontal metal cutting bandsaw machine is a part of well-known “Laxman Kadva” family group.
