## About Us

The modern building construction, in the present world is after the extensive use of insulation on various surfaces of commercial and residential structures. The issue that causes the style making of the structures is a highly principal factor in energy conservation in public areas. Aware of the fact Lexus Paints has been trying to enjoy an effective role in raising the standard of optimum consumption of energy through presenting the Lexus Wall Coat. In addition to suitability for heat and cold insulating the varieties in color develops a joyful, fresh & peaceful environment within their homes inner space. This type of covering has a high compatibility with the environment, as it is solely mixed with water for application, that there is no need to use any chemicals for the application. All used components are natural and that is why Lexus wall covering is environmentally safe for residential and commercial structures.
