# Lighthouse Info Systems Private Limited

<https://www.indiamart.com/lighthouse-infosystems/>

Service provider of lighthouse erp standard, lighthouse erp hrm, lighthouse erp plant maintenance module etc.

## About Us

Lighthouse ERP™ is a business system software based on Oracle back-end (6i and 10g) and front-end (Oracle developer) technology. The ERP business application automates the fundamental processes of an organization so as to ensure smooth flow of information across departments and ensures an MIS which is not only accurate but also up-to-date. These modules deliver integrated functionality and have been developed to incorporate the industries' best practices to give you the optimum return on your IT investment.

Lighthouse's biggest strength for its clients has been its complete commitment & dependability. No project begins before a complete understanding of the client's business and then customizing the entire solution to his needs.

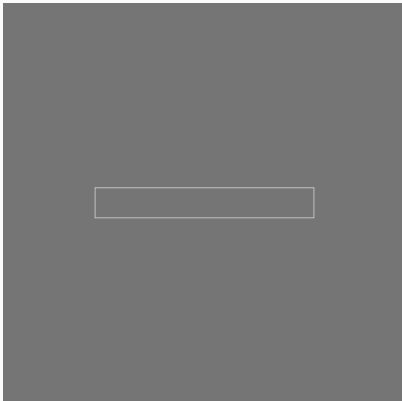

This is followed by a hand-holding process where in the support is provided till the time the client is completely independent. Comprehensive support spanning over two decades has been exemplary having created industry benchmarks.
