<https://www.indiamart.com/lightmen-hyderabad/>

Distributors for LED flashlights and LED products in india. Aim to bring the best of LED flashlights to india!

## About Us

We are distributors of Philips Lighting in Hyderabad, Andhra Pradesh since 1979. Being in the lighting industry for over 25 years, we noticed that the Indian market didn't have access to quality LED's, flashlights and accessories that the world market gets to enjoy. To counter this, our catalogue offers an expanse of best-selling LED panels, spotlights, ceiling lights and flashlights.

As Fenix flashlight distributors, our flashlights catalogue includes several variations of handy flashlights like bike lights, diving flashlights, headlamps and powerful search lights among others. We also sell a wide range of flashlight accessories like mounting devices and holsters, remote pressure switches, rechargeable batteries and battery chargers, color filters, traffic wands and life saving whistles.

We at Lightmen are determined to drive on the two basic parameters for flashlights and its accessories that the Indian market currently lacks - Reliability and Durability. With this as our priority, we introduced Fenix flashlights in the country. Fenix flashlights are known to be the best in the LED flashlights industry the world over. Their sale expands over 78 countries with a loyal customer base that goes well into the millions.

With over 2 decades of expertise in the lighting industry, we at Lightmen understand that the costs that are associated with international brands in importing, custom duty and freight is high, which results in higher priced products...
