Coninven Engineering Private Limited

https://www.indiamart.com/lingeswarar-engineering/

We are engaged in manufacturing, supplying, importing and exporting a wide range of Textile Finishing Machinery. These products are appreciated for reliability, durability and ease of usage by clients across the globe.
About Us

Founded by Muhunthan Kumar at 2009, "Lingeswarar Engineering" remains today a family owned and operated company. We at Lingeswarar Engineering design and manufacture the world’s leading technologies for the global knit finishing textile industries. No matter how difficult the economic and ecological demands on textile finishing may appear to be, an experienced team of experts and a range of functional services including our own technical laboratory are at your disposal for development. We are located at Avinashi, our proximity to this knitted textile industry cluster, bring lot of value to our technology, easy to accept technology, greater productivity and customized to this specific industry, which meets global requirement.
