## About Us

With the support of a wide distribution network along with a highly qualified team of professionals, we, LK Export International, the star export house of India, are able to meet customers' requirements within the scheduled time frame. Incepted in 2013, we are manufacturer, exporter and supplier of Fresh Vegetables, Sea Food, Cooking Spices, Indian Rice and Coconut Powder. We believe that in order to maintain a smooth flow of all business operations, a proper infrastructure is necessary. Therefore, we have invested a heavy capital in building a well equipped infrastructure. Further, we have planned the entire area by segregating it into several wings like the production unit, quality analysis section, warehouse & packaging, administrative departments, etc.

Our strength lies in our ability to ensure diversity and quality in our products. Our ability to obtain and supply the best grade products is backed by our sound network of reliable manufacturers. We work in coordination with them to ensure that the products manufactured by them are a step ahead of those offering by others in terms of value and quality. With the help of our expert sourcing team, we have collaborated with some of the quality conscious manufacturers who follow set industry standards & norms. Furthermore, our products are appreciated for their longer shelf life, freshness, high nutritional content, and other attributes.
