About Us

The growth of business in India is phenomenal which is well known to the world-wide business community. The largest democratic country-India, politically and economically sound with a huge market, has attracted many new players coming into India to share the benefit of constant growth. The aviation and shipping industry is no exception. In this field also airlines and shipping lines are adding continuous benefits to the growth of our company. We are a Western India based logistic provider with strong base at all major ports. Being in our first year running backed up with our experience and expertise in the field of logistics has been nominated by esteemed organizations to move their shipments. We have our service contracts with the leading shipping line and can negotiate very competitive rates and ensure availability of space and equipment. Rich experience in different fields like Hospitality, Finance and Logistics gives us an edge and the platform to perform better. We are presently providing logistics services to pharmaceutical majors, manufactures of turbo machinery components, watches and allied products, metal buckets etc.
