About Us

Lok Chemicals Pvt. Ltd. , is a developing company located in Mumbai, the financial capital of India. In a short span of time the company has become a leading importer of chemicals, carving a niche for itself in the extremely competitive chemical industry. Today Lok Chemicals is synonymous for quality and services. Lok Chemicals is already an authorized distributor of some major Companies of International repute in India and also has plans to enlist few more in near future. Moreover Lok Chemicals is in a position to avail extended direct technical support from the principal companies. To meet the ever-increasing needs of the customers and to serve them better, the company has 20,000 sq. feet warehouse and liaison officers all across the nation. " Quality Products, Timely Delivery and Excellent after-sales Services" have been the guiding motto for Lok Chemicals since its inception.

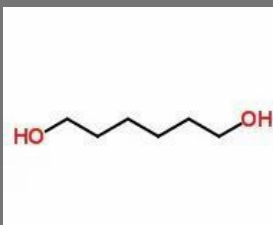

Lok Chemicals strives to offer services like High-Seas Sales to its customers for orders of large quantity as well as sizable smaller quantities. In future, Lok Chemicals plans to venture in the Bulk Liquid Cargo imports. The company has pleasure of working with the industry clientele serving small and large-scale companies with same dedication and instant response has resulted in strengthening the loyalty of customers leading to repeated orders. The Vision of Lok Chemicals is to become One Stop Shop to cater any kind of chemical requirements.
