## About Us

Mahi Seeds Pvt. Ltd, one of the fast growing R&D based hybrid seeds manufacturing company in India, incepted in the year 2005 by a group of enthusiastic, young and dynamic agriprenures having more than 180 years of combined experience in the field of research, production, processing, marketing and HR to produce world-class agro products through the highest standards of seeds of research varieties and hybrids having high yield potential, excellent quality, tolerance to biotic and abiotic stresses. Our R&D facility is approved by Department of Agriculture, Andhra Pradesh and complete product range of research varieties/hybrids of different crops are either registered in license by Department of Agriculture, Andhra Pradesh or permitted for sale by different state Government. Our R&D stations are spread over 6 different states.

We are having our own research facility and research team with fully equipped laboratory to produce high quality seeds. The process of registering our R&D facility with DSIR is already in progress. Most of our sales will be from Uttar Pradesh, Bihar, Jharkhand, Chattisgarh, Odhisa, West Bengal, Madhya Pradesh etc. Our Seed Production network is spread over Andhra Pradesh, Karnataka, Maharashtra, Rajasthan, Odhisa, Uttarkhand and Gujarat.
