We are recognized for manufacturing composites of impeccable quality and bringing in innovative solutions for our variegated clients. Our company is focused on meeting clients’ requirements with utmost efficiency and accuracy.
About Us

Incepted in the year 1982, our Company, Mahindra Composites Ltd. was formerly known as Siro Plast Ltd. We started our business operations with technical support from Menzolit Germany and established ourselves as premier manufacturers of Compounds and Composites that meet the Indian Conditions. Some of our considerable developments are “Halogen Free” materials for Electrical Applications. These materials have achieved UL094 approvals with V0 fire retardant properties. We have also developed Automotive Applications for Head Lamps with antifogging properties at high temperatures. In the early 80’s, we decided to step into the domain of manufacturing composite materials and have established a strong foothold in the market as leaders of Polymer Composites in India. We started our operations by catering to the requirements of Electrical Applications and gained expertise in manufacturing of Hand Lay Up Applications for Medical equipment, RTM Resin Transfer Moulding for Railways, Defense and Other Niche Markets. Our company has also carved a niche in the country and have set-up Sheet Moulding Compound (SMC) Machines with 48” width. We also have gained specialization in Dough/ Bulk Moulding Compounds (DMC/ BMD) for compression and injection applications. Both these operations came to our repertoire in the 90’s and we have not looked back ever since. ...
