About Us

We (Mainstream Investments Advisors Pvt. Ltd.) are a dedicated Financial Planning and Wealth Management Company working in this area since 2005. In this short span of time, Mainstream Investments Advisors Pvt. Ltd. has earned the trust and goodwill of its client and respect from the Investment community.

We are guided by a firm belief that every one of us is capable of attaining abundance by ethical means. In fact the name of the company itself denotes that the company will help the "mainstream population" earn the riches through mainstream resources, though these resources might seem hidden.

We encourage people to dream big. We then give those dreams a written shape in the form of written financial plan. We then together with them find the required resources to attain those dreams and we do it sustainably till they fulfill their dreams.
