About Us

The best quality of marble during this world. The oldest and the best quality marble in the planet. It needs no chemical reinforcement like Italian marble, no pin holes, no color amendment and loss of polish. This is practically verified by the buildings and numerous temples, mosques, churches and monuments in India for over one thousand years now. Thus a lifetime of next seven generation is guaranteed. Makrana marble is basically a god quality of marble. It additionally known as milky white marble. this marble have white color , grey and panther brown looks. . actually Makrana is that the name of village. which marble turn out from here. that known as Dungri marble. There are 150 Gangsaw established mfg. marble slabs & tiles. The Investment in marble units is of Rs. 500 zero Crore approx. More than 250zero marble seller units are here. This sector employed Fifty thousand direct & indirect persons.

Makrana may be a town in the Nagaur district of Indian state of Rajasthan. Makrana is famous for the white stone as marble mined from the mines around it. It is alleged that the Taj Mahal was designed from Makrana marble. Makrana is a small city, however it has plenty of marble outcrops. Most of the residents in this city work as marble miners.

The city is well linked to railroads and different sorts of transportation.

Known for its white marble reserves, Makrana is a little town in Nagaur district, with a deposit of fifty six million tonnes...
