<https://www.indiamart.com/mandhanaengineers/>

A distinctive manufacturer, supplier and exporter of Fabricated Structures and Mechanical Structures. Our product range is appreciated by our clients for its high performance, tensile strength, reliability and cost-effectiveness.

## About Us

We, “**Mandhana Engineers Private Limited**”, are engaged in manufacturing, supplying and exporting an extensive range of **Fabricated Structures, Mechanical Products and Rope Drums**. Our exceptional product range is highly acknowledged for its high temperature tolerance, tensile strength, performance, rigidness and long service life. Apart from manufacturing these products, we also offer highly reliable, cost-effective and timely executed **Fabrication and Machining Services to our clients**. With our specialization in offering turnkey solutions, we have catered to various areas such as **Telecommunications, Transmission Line Towers, Sub Stations and Distribution**. Situated in **Central India at Umiya Industrial Estate, Nagpur, Maharashtra**, our organization has established a state-of-the-art infrastructural set up. Our infrastructure is segregated into different sections like manufacturing facility, quality assurance department, R&D wing and warehousing unit. All these departments are equipped with required facilities as machines & equipment. Our machining facility allows us to offer excellent Machining related services to our clients. The credit of our organization's phenomenal growth & success in the international market goes to the dedicated efforts of our mentor, “**Mr. Vikas Mandhana**”. His excellent business acumen and rich experience of the industry assist us to attain utmost...
