Maruti Stone Cutting Industries is an established company engaged in the export of all type of stones. The company is based in Gwalior (Madhya Pradesh) India - The land where the art of stone carving has been brought to perfection.

About Us

Maruti Stone Cutting Industries is an established company engaged in the export of all type of stones. The company is based in Gwalior (Madhya Pradesh) India - The land where the art of stone carving has been brought to perfection. The company was established 20 years ago and has performed exceptionally well since it started its operation. It promises a lot in the days ahead. Maruti stone is our family business and we respect our business a lot. We have two factory units one at Ghatigaon about 40kms from Gwalior City nearby our quarry and another at Stone Park Gwalior. We have four different qualities of stones in our mines i.e. MINT, MODAK, BUFF & DESERT and we procure 1750 to 2000 cubic meters stone per month from it. Normally hand cut materials are processed at our Ghatigaon factory & the machines related finishes are processed at the Stone Park unit.
