# Matrix Engineering

<https://www.indiamart.com/matrixelectronicscontrols/>

We are a leading **Manufacturer** and **Supplier** of PID Sensor, AC and DC Drive, Machine Spare Part, etc. Besides, we also provide Industrial Automation Work, Machine Retrofitting Service, Mechanical Tool Designing Work, etc.

## About Us

We “**Matrix Engineering**” have gained recognition in the market by **manufacturing** and **supplying** qualitative assortment of **PID Sensor, Servo Motor, AC And DC Drive, Machine Spare Part, Electrical Control Panel** and **Special Purpose Machine**. Managed under the guidance of our **Proprietor, “Mr. Debraj Majumdar”**, our company has gained huge success in national market. Established in the year **2013** at **Ghaziabad (Uttar Pradesh, India)**, we have constructed a robust infrastructural base that is armed with modern production technology and machinery. This well structural infrastructural unit is the core strength of our company and assists us in the production of qualitative electrical panels, sensors, motors, spare parts, and other products in different specifications. We have segregated our infrastructural base into functional units such as procurement, production, quality control, sales & marketing and warehousing & packaging. We have gained a huge client base across the nation due to our easy mode of payment, ethical business policies, client centric approach, timely delivery and positive records.

Our production team precisely manufactures these electrical panels, sensors, motors, spare parts, and other products as per the defined quality standards by using supreme quality raw material and innovative technology. The offered electrical panels, sensors, motors, spare parts, and other products...
