We are one of the reputed names engaged in Designing, planning, manufacturing, trading, supplying, exporting and servicing of a qualitative range of Medical Gas Pipeline Systems, Equipment, Nurse Call Systems, ICU & Operation Theater Products.
About Us

Since its inception in the year 2007, Medicare Gas Pipeline Services is engaged in providing services ranging from manufacturing, trading, supplying & exporting to planning, installation & commissioning of a comprehensive range of Medical Gas Pipeline Systems, Equipment, Nurse Call Systems, ICU & Operation Theater Products. Owing to various attributes, our range is widely used for serving diverse applications in Hospitals, Hospital Architects, Hospital Construction companies, Hospital Consultant companies and Nursing Homes. Due to our robust infrastructure and integrated servicing facilities, we have progressed in achieving specialization in the respective domain. With the assistance of our in-house quality control unit, R&D unit and a team of industrious employees, we provide an unbeatable range of medical equipment, products & services. Our consistent efforts and committed approach have helped us attain a long list of reputed clients, who all are highly satisfied with our efforts. Within a short time span in the industry, we have been able to make a mark and establish ourselves as a distinguished player. All this have been possible because of consistent efforts and able guidance of our mentor, Mr. Rajesh Mate. His industry excellence and supervisory skills are leading us towards becoming a prominent name in the industry.
