MegSoft is a software outsourcing company based in India that focuses on highly qualitative, timely delivered and cost-effective offshore software development.

About Us

MegSoft is a software outsourcing company based in India that focuses on highly qualitative, timely delivered and cost-effective offshore software development. With a rich and varied experience in providing offshore software development and project management capabilities and stringent quality standards ensure us to develop solutions that give your business an edge over your competitors. Our global software outsourcing model makes sure we deliver maximum targeted result to you.

We are working in Visual basic since 1998 and switch to .NET technology from 2002. On our way of 12+ years of software development carrier we had developed so many useful handy tools. We plan to sell those tools at affordable cost. As the result, we made this website for purchasing our products online. We can do customization on all the tools published here. We support all major credit cards through PayPal and Moneybookers.

We have extensive experience in .NET Development Technologies like ASP.net, VB.net and with our early adaption and extensive experience, MegSoft is an ideal partner to develop web applications as well as desktop applications using .NET Technologies. Our team remains updated with latest products and technologies available from Microsoft. Our experienced.net development team uses technologies like ASP.NET, VB.net .Net, XML, WinForms, Web services, and MS-SQL Server database to create powerful applications that are as per your requirements and budget.
