We, at Metal Coat started our journey way back in 1988, are one of the leading manufacturers and exporter of a vast array of Thermal Spray Equipment and Coating Systems.
About Us

We, at Metal Coat started our journey way back in 1988, are one of the leading manufacturers and exporter of a vast array of Thermal Spray Equipment and Coating Systems. With our wide range of Metallizing Equipment, Auxiliary Equipment, Consumables- we provide the right choice for your specific application.

To manufacture these offered products in compliance with the set industry standards, our experienced professionals use the most modern machines and tools available. Our products are appreciated for their features such as corrosion resistance, efficient performance and flawlessness. Quality for us is one of the most important areas and we strongly believe that our consistent relationship with our customers purely depend on our capability to ensure delivery of good quality merchandise, every time keeping this in mind, we have ensured that our quality team is involved in all aspects of a product development and execution.

Our offered products are widely demanded in automobiles, aerospace, textile, biomedical, paper, electrical, power generation, decorative, food processing, marine, oil, transportation, LPG Cylinder Manufacturing, Tube Mill, Railway and many more industries.

Since thermal spraying is a dynamic industry, new customer requirements are continually arising. We take great pride in our company’s performance and ability to adapt to changing industry demands, consistently providing top quality products...
