We believe we are a young company on its growth path and despite being a leader in the Indenting Vertical for Non-Ferrous Scrap we see tremendous opportunity untapped which can be addressed by our experience and expertise.

About Us

The footprint of Metal scrap Recycling (M) Private Limited extends well across the Indian sub-continent. We have branch offices manned by our experienced trading staff in the Brass Scrap Capital Port City of Jamnagar in Gujarat and in the National Capital of New Delhi. We have created several strong partnerships with all the leading shredders and traders across the world and they in turn are delighted to have us partner them. This has resulted in a near continuous improvement in service deliveries and shorter lead times in procurement making us a reliable partner for any company from outside wanting to make its presence in India.
