We “Metnation Technologies” are the manufacturer of Metallography Sample Preparation Machines, Microscope, Microhardness Tester, Image Analysis Software, Cleanliness Particle size analysis software & Millipore kit.

## About Us

Established in the year **2016** at **Pune, Maharashtra**, we “**Metnation Technologies**” are a **Partnership** based firm, engaged as the foremost **manufacturer** of **Metallography Abrasive Cutting Machine, Metallography Belt Grinder, Metallographic Hot Mounting Press, Metallography Image Analysis System, Metallography Polishing Machine, Metallurgical Microscope, Microhardness Tester and Stereo Zoom Microscope**. Our products are high in demand due to their premium quality, seamless finish, different patterns and affordable prices. Furthermore, we ensure to timely deliver these products to our clients, through this we have gained a huge client base in the market. Metnation Technologies, stands among one of the recognized companies for providing either the equipment or the testing service you require for the determination of the technical cleanliness of your components in accordance with inspection. Contamination removal from components used in automotive, hydraulics and production systems is becoming increasingly important as suppliers, producers and end users look for better reliability. The microscope analysis identifies the type & quantity of particles in different size classes including longest particles and fibres according to the applicable test standards applied.
