

Mformation Technologies Inc

<https://www.indiamart.com/mformation-technologies/>

Offering configuration services, activation services and software services.

About Us

Mformation is the leading global provider of mobile device management (MDM) technology. Mformation offers a complete solution that enables mobile operators, service providers and enterprises to remotely manage, support and secure all types of mobile devices across all network types. Mformation's market-leading Mformation Service Manager™ suite is the most complete, flexible and integrated mobile device management software solution in the industry, supporting end-to-end management across the broadest possible range of endpoints, from mobile devices to connected computing devices and machines. Hundreds of millions of devices, generating millions of transactions a day, are under the management of Mformation's device management solutions. Ongoing research, development and innovation ensure that the Mformation platform is continually meeting the changing needs of mobile operators and service providers, both today and into the future. Mformation continues to drive key mobile device management standards such as OMA DM, and is supporting and shaping other standards as new classes of devices and machines become connected. By staying at the forefront of device management innovation, we ensure that we have solutions for the next generation of device management issues.
