

MGR Metallics

<https://www.indiamart.com/mgr-metallics/>

Supplier and exporter of iron ore concentrates, manganese ore concentrates, stones and rocks, mineral ore concentrates and natural stones. These are in huge demand from construction, agriculture and iron and steel sectors to name a few.

About Us

Established in the year 1999, we, “Govindaraj”, are one of the prominent suppliers and exporters of mineral ores, mineral ore concentrates and natural stones. These are used in a number of industries such as Ceramic, Refractories, Cement, Foundry, Construction, Agriculture, Rubber, Paints, Glass and Steel. These are used for a wide variety of purposes such as construction & building and metal extraction. We also offer customized solutions for some of our products.

Our team, along with our sound infrastructure, had been a major assistance for us in delivering high-quality mineral ores, mineral ore concentrates and natural stones to our clients. Our quality policy and easy modes & terms of payments also help us in our endeavors to establish ourselves as the leading name in the industry of metals and minerals.

Under the aegis of our mentor, “ Mr. Marri Govindaraj”, we have always striven for greater heights in the business of supplying and exporting natural stones, mineral ores and mineral ore concentrates. His decade-long industry experience and keen understanding of the market trends have helped us assemble an esteemed group of clients whom we highly value. As an expected outcome, we are slowly and steadily paving our way towards the highest point of financial success in the industry.
