About Us

Overview

Driven by extraordinary work ethic and broad experience, Mindful Systems & Solutions was founded in 2012 and is an experienced player in the substantially growing market ofdevelopment of customized and general-purpose software in the field of

- Web applications
- Mobile applications

We have wealth of experience in delivering for enterprise customers across different domains providing us a deep foundation in engineering robust, scalable business-critical applications.

IT Consultancy and Services

MSAS is adequately geared with the professional expertise and domain knowledge to leverage a gamut of web technologies to develop and deliver applications that help you garner accelerated growth for your business. Our domain expertise cover industries such as Education, HR, Enterprise Security, Retail and Event Management, CRM, Transportation Management, Manufacturing, Insurance, Ecommerce and Energy Management.

- Our Web/Mobile Application Development services cater to both B2B and B2C.
- We specialize in building multi-tenant application targeting Azure and Amazon’s infrastructure.=

AppDevelopment

With handy processing power, especially with available bandwidth, a mobile app is part of any solution. As a organization we envision it to be one of our core areas. Our journey in app development started when we participated in development on Appcelerator’s framework targeting custom Android...
