About Us

Motif signifies an unifying idea that is a recurrent element in an artistic work. From its inception in 2008, Motif architects has built a reputation for innovative design and exceptional services. With a thought to create an emblem of creative ideas, Motif a team of young architects has imparted practice in the multi-disciplinary field of architecture and designs. Whether it is at the scale of a building complex or a cozy interior space, Motif intends to creates places where people and communities can thrive. Collaborative by nature and innovative by design, our work responds to the evolving demands of an ever-changing world.

We also believe in designing process that necessitates considering the aesthetic, functional economic and sociopolitical dimensions of the design space which involves considerable research, thought modeling interactive sessions to arrive at an appropriate design solution. We aim at delivering turnkey design solutions for buildings in a way that integrates all aspects of building design. In the work of Motif, environmentally conscious design has become an integral consideration in the formulation of architectural ideas and in the spatial experience embodied in each completed project.

Motif has been constantly providing planning and design solutions to both private and public sector clients. We are focused on delivering facility designs that are sustainable/ practical and sensitive to the environment and to its users.
