About Us

EVM Group : Established in 1952 as a small entrepreneurial group with a turnover of Rs.10,000 ; today EVM Group has gone on to become one of the most established networks of diverse companies. Right from our humble beginning through the hard work of over six decades, EVM has dared to dream big and dominate various business sectors while keeping with our primacies to maintain a customer-focused, value-based business capable of rising up to new challenges.

When the esteemed Mr E.V. Mathai established EVM Group as a modest venture dabbling in the market by selling spices, its current flamboyant standing in Indian entrepreneurial ladder must have seemed implausible. However his unwavering vision, tireless toil and altruistic leadership has unanimously led EVM to a position of owning about eighteen companies, including partnerships and limited ownerships.

With the backing of a satisfied group of employees and partners, we have managed to conquer many large and small industrial opportunities.
