# MS Engineering Works

<https://www.indiamart.com/ms-engineering-works-delhi/>

Supplier of tapping machine, rod bending machine, rod cutter machine, machine lamps and spout assembly and all types of machine.

## About Us

The **MS Engineering Works** is a leading company of India. We are top manufactures of All of Tapping machine, Rod (Bar) Cutting & Bending Machine, Machine Lamps & Spout Assembly. We are also Trading, Exporting & Supplying any type of Machine, anywhere in India or outer countries.

### **Tapping Machine :**

A **tapping machine** is a device used to test the impact sound insulation of floors. The standard tapping machine has five hammers placed in a line. Each hammer is lifted and dropped in turn, creating 20 impacts per second on the floor. In the room below, a sound level meter is used to measure the sound level created by the impacts. Because the force and frequency of the impacts is known, the impact insulation provided by the floor can be determined from the sound level.

### **Rod (Bar) Bending Machine**

We are a quality focused manufacturing, suppliers and exporter of highest performing Rod (Bar) Bending Machine. Theses are equipped with a gear box which is fully enclosed and in distance to the working disk to prevent any distortion during heavy load operations. The offered machines have an anti-dust brake motor with two limit switch to deliver accuracy in the bending angles. Also, there are movable saddles provided in the unit for precise bending angles adjustment. Our steel bar bending machine has a compact design for easy movement and installation. Rod Cuter Machine We are a...
