## About Us

We were working individually to train people for these exams for last nearly 5 years, but officially we started in 2012, as we saw there is very little awareness amongst common people and majority of youth about these exams and recruitment process. And there are very few institutes to guide. And majority have old fashioned way of training. So we feel there is a big void to fill up, in training and guiding people properly in their career goal. Why MUDRAA? Five reasons why you join us

- **Small Batch Size** - Unlike others who run batches of 50 students at a time, we have small batches of 10 to 15 students.
- **Faculty** - this is our pillar, we promise you best training in all the subject. We have modern, energetic trainers to mentor you the exam giving skills rather than just subject related skills. So even if you are weak in certain subject, it won't create a big hurdle in actual exam if dealt with it properly under our guidance.
- **Test Taking Strategies** - this is our USP, even many big or old and reputed institutes don't teach the skill of giving tests, even if they promise to do it in their courseware. This is the most important part of preparation and seriously no one can beat us in this.
- **Individual Attention** - individual attention to all the students because of small batches is easy for us along with doubt session . We help our students right from their application form...
