# Multiquadrant Industrial Controls India Private Limited

<https://www.indiamart.com/multiquadrant-industrial/>

Manufacturer of steel, tyre, material handling and online testing equipment.

## About Us

**Multiquadrant Industrial Controls (I) Pvt Ltd.** had its inception in 1991-92 as a Power Electronics Specialist. Founded by four technocrats with sound industrial experience MICIPL has expanded its operations to encompass every quadrant of electrical and electronic control & automation systems. Over the last two decades MICIPL has successfully executed various turnkey assignments of industrial automation systems. With the capability to handle all steps from system design, engineering and co-ordination, application software writing, erection supervision, commissioning and production trials MICIPL has metamorphed into a Total Solution Provider (TSP) Group.

**Multiquadrant Industrial Controls (I) Pvt Ltd.** has partnered with SIEMENS in developing cutting edge solution for the last two decades and is one of the first largest Authorized System House for Siemens since 1991. We provide solution to meet all your Manufacturing automation requirements. Some of our Business areas are as below • Turn-Key Solutions

- Process Optimization and Automation.
- Manufacturing Execution System (MES) and Business intelligence (BI).
- Energy Systems.
- Research & Development and Corporate Training
