About Us

MyCorn is a healthy concept in snacking that is simple but still has unique and interesting flavours. MyCorn Stirs up a taste temptation with its natural goodness and flavour which keeps everyone wanting for more. Fresh corn kernels are processed in the most hygienic conditions in an automated plant and served hot with butter, lemon, and choice of seasoning. The corn delicacies are prepared in imported steamers and served through state of the art vending machines that are manufactured using BEST stainless Steel.

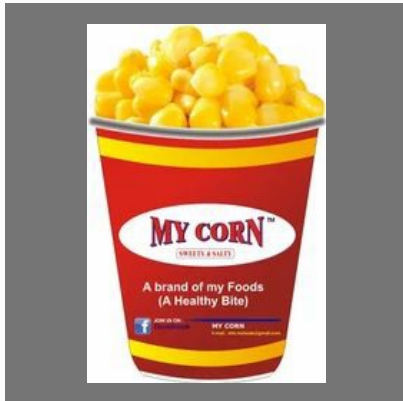

With the first hit on the taste, MyCorn has rapidly grown in the entire country and today has its 14 company owned and operated outlets. Today more than 98000 people enjoy the tasty corn every month.
