About Us

Who We Are NAAM BIOTECH, a professionally managed company deals in **marketing of Poultry Medicines and Feed Supplements**. We are one of the well known leading reputed company and have a wide experience in the field of Animal Health Medicines **What We Do** According to Present Scenario, We have gained wide acceptance for our products due to the strength of concept and its implementation. Naam Biotech aims at doing **innovation and research study** regularly and tries to develop the products which are capable of adding value to both productivity as well as developing new techniques of treatment. **Why Us Naam Biotech** Quality Products differentiates it from others. Naam's Branded Products such as **RESTO-B, Namcip, Naamflox, NephroRx, BIOTOX, Nenzyme** have a wide presence in Market and we guarantee the products rich in the value of concepts and evaluation. Naam Biotech bound itself to produce products under the ISO 9001-2000 and GMP Standards. **Quality Policy: QUALITY ASSURANCE AND INSPECTION (Under ISO 9001-2000 & GMP Certified Standards)** Naam Biotech Quality management system is built around the philosophy of Prevention i.e. Quality Assurance rather than Detection i.e. final product inspection. It is considered prudent to be associated right from initial stages of production/manufacturing and at all appropriate stages so that the chances of rejection at the final stage are eliminated. The process of...
