Manufacturer of plastic products.

About Us

Nano plast is a partnership concern with E.Baskaran as the managing partner and M.Syed sulaiman as the co-ordinator. Syed Sulaiman is a post diploma holder in plastic molding technology (PDPMT) and a MBA graduate. His years of experience in the recycling of plastic items helps in constant progress in its diversified manufacturing processes. The Managing Partner E.Baskaran also has wide exposure in plastic goods manufacturing and recycling.

Nano plast reproduces plastics for various usages through its recycling process. Considering the fact that market requirement for plastics is always on the increase and its usage is widening into more and more areas, we have introduced several modern methods in our manufacturing process and fulfill various market requirements.

We, at our factory, recycle all kinds of plastic materials and reproduce them into virgin materials. Thus we supply different plastic goods manufacturers with their exact need.

By producing quality products and providing professional services, we bale, shred, grind, pelletize and blend raw materials for the plastics industry.

Manufacturing of Engineering Plastics Raw Materials & Compounding with Fibre-galss, Minerals and Alloys of Plastics is our specialty.

With trained Manpower, Eagle-eyed Supervision & Latest Machineries, we observe quality control at each and every stage of the manufacturing process. Our Production facility consist...
