

Nanotech Test & Measurement Solution

<https://www.indiamart.com/nanotechtest-measurementsolution/>

Nanotech Test & Measurement Solution (Nanotech-TMI) is totally focus on providing solution for various type of Test & Measurement based on user application.

About Us

Nanotech Test & Measurement Solution, being an Engineering Organization, our prime motto is to provide solutions for Standard & Customized Equipments to fulfill the needs of the Client's Technical Requirements.

We are solution provider & supply wide range of Test & Measurement solution/ equipments with Principle of 3S (Sales- Service- Support).

We, **Nanotech Test And measurement Solution** are distributors for a wide range of Instruments on behalf of various manufacturers from various countries of the world.

With an experience of more than 12+ years of our dedicated teams & experts in the field of Solution Provider for Test & Measuring Instruments, we are well capable to provide a suitable solution for various Applications related to QA, R&D, Laboratories & Maintenance departments under Industries like Automotive, Electrical & Electronics, Aerospace, Pharmaceutical, Food & Beverages, and Chemical, etc..

Xray 3d Tomography

Industrial 3D X Ray Scan Service

Advances the internal structural analysis, design and CT technology services as an efficient tool to provide valuable information. Structural analysis and measurement of internal features is often vital for quality control, failure analysis and forensic research in various service industries.

- Fault detection and failure analysis
- Assembly inspection of complex mechanisms
- Dimensional measurement of internal components
- Reverse engineering
- Addition of material research
- Analysis of the biological structure
- Digital archiving of models

AUTOMOTIVE

- Electrical connection
- Injection moulds
- Gaskets & gaskets sensor
- Oil pump gears
- Small high-precision die cast parts
- Oil (Crank) Torque Converter

AEROSPACE

- Turbine turbine blades
- Turbine turbine blades
- Check analysis in components
- Drill analysis

PLASTIC INJECTION MOLDING

- Complete plastic components (e.g. Ball
- Ball, ballpoint, injection, wheel, ball, or spring in the
- Ball)
- Ultrasonic welding of plastic parts

PHARMACEUTICAL/MEDICAL

- Medical equipment
- Small medical device (Instruments, vials, syringes, etc.)
- Small plastic or composite parts
- Bone structure
- Research (X-ray, MRI, X-ray, etc.)

RESEARCH

- Research and development and analysis (e.g. structure, assembly, etc.)
- Research (e.g. X-ray, X-ray, X-ray)
- Corrosion and salt analysis
- Archiving
- Research (e.g. X-ray, MRI, X-ray, etc.)
