Insha Equipments

https://www.indiamart.com/nasconinsha/

We are a reputed organization engaged in manufacturing and supplying an exhaustive range of construction machinery and equipment. Our products are known for sturdy construction, effective functionality, ease of operation.
About Us

Established in the year 1991, we, Nascon Insha Equipments, are a renowned manufacturer and supplier of quality Construction Machinery and Equipment in Eastern India. These are manufactured using high grade metals like steel, mild steel, electro-welded steel and En-24 alloy steel, and are in adherence to ISI regulations. The range available with us is well accepted in the construction industry and building sector. For the proper marketing and sale of the machines offered by us, we have a widespread network of distributors and agents throughout India. The excellent presence that we enjoy in the international market has allowed us to garner a sizable client base. We are backed by a well equipped production unit, where all our designing, manufacturing and finishing activities are carried out. The products are tested for quality of surface finish, performance and durability at our sophisticated testing laboratory. In order to upgrade the product line, we have set up an exclusive research and development wing. All units are fitted with latest machines and technologies, and are managed by experienced professionals. We are headed by Mr. Aamir Khan, who is holds expertise in this line of work and is proficient with all our operations. Under his guidance, we have experienced tremendous growth, which has enabled us to consolidate our position among the industry leaders. He is the driving force behind our pursuit of excellence and...
