## About Us

Established in the year **1990**, '**National Automobile Body Builders**' is a professionally managed organization engaged in offering reliable and effective fabrication services for Automotive Body Building. Fully insured and approved by the RTO, our organization specializes in offering high quality auto body, paint and frame work for all types of vehicles. Designed as per set industry standards, our complete range is fabricated using optimum quality raw material and advanced machines. With experienced engineers & fabricators and sound infrastructure, we have been able to offer optimum service and products at cost effective prices. Fully equipped with advanced machines and technology, our fabrication unit supports us in meeting the diverse demands of the clients for automotive bodies. Our excellence in this domain enables us to stay ahead of our competitors by providing most reliable solution to the clients. Capitalizing on the ample knowledge of our mentor, '**Mr. Sasi Achary**', we have been able to carve a niche for ourselves in this competitive market. His rich industry experience and immense knowledge have helped us in garnering a huge client base. Two of our clients are L&T and Gati.
