

National Refractories

<https://www.indiamart.com/nationalrefractories/>

Manufacturer and exporter of alumina silicate bricks, insulation bricks, ferro manganese, ferro chrome, refractory bricks, silicate bricks, alumina bricks, MS billet, MS scrap, pig iron and sponge iron.

About Us

In the 1920s, Mr Bhuramal Agarwalla, founder of the BMA Group, had made a foray into the obscure energy industry with a mission to assume eminence in the coal mining business. With his vision and character, he managed to place the business on a higher pedestal. By adhering to bi-pronged philosophy of risk-taking and fostering an ethic-based environment, he cautiously promoted excellence through quality to meet the expectations of both domestic and international clients. Taking inspiration from this, the group has scaled many heights venturing into Refractories, Smelting, Ferrous Alloys, Coke and is leading by example. In the age of Second Generation Reforms, the company has successfully passed down its mantle to the Fourth Generation. The group has successfully fused traditional methods with modern mantra of management to come out with flying colors. The group has taken multifarious initiatives, some of which have already yielded dividends. We are manufacturers and exporters of ferrous alloys, refractories etc. The holistic production process combines a perfect balance between product availability, manufacturing procedure, quality supply chain and a geographical dispersion of marketing and operations. Over the years the BMA Group has become a single reliable source for resources and a Group you can count on for delivery and quality. Service to the customer goes beyond the sale of products by providing technical advice for economic and efficient applications and maintenance...

ALUMINA SILICATE BRICKS

Alumina Silicate Bricks- Super Heat Duty Bricks

Silico Manganese- H.C Silico Manganese (Low Phos)

Silico Manganese- M.C. Silico Manganese

Silico Manganese- H.C Silico Manganese

REFRACTORY PRODUCTS

Maithan Alloys

Ferro Silicon- Ferro Silicon
(Normal Al.)

Ferro Silicon- Ferro Silicon
(extra low Al.)

Ferro Silicon- Ferro Silicon
(low Al.)

ALUMINA MORTARS CASTABLES

Fireclay & High Alumina
Mortar

Fireclay & High Alumina
Castables

Fireclay & High Alumina
Ramming Masses

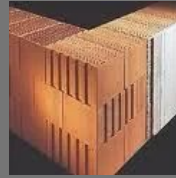

Monolithics

INSULATION BRICKS

Special Insulation Bricks

Special Insulation Bricks

Insulation Castables & Mortars

Insulation Castables & Mortars

Ferro Manganese- H.C Ferro Manganese

Ferro Manganese- H.C Ferro Manganese (Low Phos)

Silico Manganese

OTHER PRODUCTS:

Low Ash Coking Coal

Alumina Silicate Bricks- High Alumina Bricks

Insulation Bricks and Refractory Bricks

BMA Stainless Ltd

Factsheet

Year of Establishment	: 1983
Nature of Business	: Exporter and Manufacturer
Total Number of Employees	: 26 to 50 People
