## About Us

Based in Mysore, we Navya Fetal Medicine Centre have well established for providing the most effective fetal medical care services to the patients. Our services comprise of Fetal Medicine Centre, Fetal Viability Scan (6-10 Weeks), Screening (Downs Syndrome Screening, Cervical Screening), First Trimester Scan (3D/4D Scans) and Scanning (Fetal Anomaly Scan, Fetal Well-Being Scan, Fetal Cardiac Scan, Multiple Pregnancy Scans, Fetal Echo). In our clinic, we only use advanced technologies and diagnose equipment which result in providing the best and appropriate medical findings. Our high quality services are extremely useful for the women which provide them expert diagnosis along with management of complex cases. Our team of highly qualified and experienced physicians work together to provide quick and accurate diagnose of fetal abnormalities. All the women are facilitated with providing them the genetic counseling as per their detailed problems. We always focus on ensuring by providing much information along with perfect diagnose as the patients and their families needed. Further, we make our patients more satisfied by providing them various options of analyses to choose from which are well suited with their situations.
