# NBS Power Innovation

<https://www.indiamart.com/nbs-power-innovations/>

Trader of inverters, tubular battery, power ware etc. Also offering repair services, consultancy services etc.

## About Us

nNBS power is a innovative company whose team has over 13 years combined experience in the power conditioning and electrical industry. We put up our business on our standing for listening to and looking after our customers. we are based in tricity (chandigarh & mohali) but are taking care of our customers throughout punjab, haryana and the rest of the himachal. We always follow a firm consultation process to ensure high quality service and customer satisfaction. we are not affiliated with many brands, which means that we can offer unbiased, no demands proposal. We only recommend products that we know from our own experience to be consistent, and which create outstanding outcome.
