About Us

Neo Systemk believes "**Every business can be a sustainable business**". Sustainable business is one that meets the needs of the present without compromising the ability of future generations to meet their own needs. We are a well recognized name in the field of **Manufacturing of Water Saving Components, Plaster Mesh, Anti Pollution Mask**, etc. We know that society, the environment, and the economy are interconnected. It just makes sense to pay attention to the environmental impact of our economic practices, and try to ensure that our communities are healthy, pleasant places to live. Neo Systemk proudly introduces Eco 365 days brand of water saving devices for domestic and commercial. Installation of water saving devices will result in water and money savings. Another core product by Neo Systemk. is Water fee Urinal concept. As the name suggest, these urinals do not require Flushing of water still 100% hygienic and Odor free. Use of this results in saving of water, money, energy and time. We help you to achieve sustainable development; We look to provide solutions that lead to simpler, more self-sufficient way of living. Adoption of our solutions in day to day life would conserve energy and water, minimize waste, prevent pollution, and shrink carbon footprints, eventually resulting in a secured future for generation ahead. Our mentor **Mr. Goutam Surana** manages the entire business ...
