## About Us

New Tech Projects Solution was established in the year 2014. We are manufacturer of prefabricated steel building and prefabricated building structure. We are also providing liasoning service to our valuable clients. Our buildings are easy to install, maintain and have longer service life. Offered product is highly appreciated for its robust structure and high corrosion & weathering resistance. Prefabricated steel building is extensively being used as storage container, warehouse, refrigeration store and bunkhouse.
