About Us

Established in the year **2003**, **New Bharat Engineering Services**, is one of the prominent service providers for a wide range of **Electronic and Electrical Goods & Services**. We are also engaged in offering Technical Manpower services to our clients. We are appreciated widely for quality, timely execution, cost effectiveness and high level of customization. We keep our commitments and ensure to deliver the service within the committed time frame. The company's objective is to provide efficient and optimum service at all times, to execute contracts on schedule with quality materials and high standards of workmanship and to ensure satisfaction of its clients with due consideration to health, safety, environment and welfare of all its employees and that of the client and sub-contractors. The Company strictly adheres to the policy of Quality, Safety and Reliability and Customer service. We have built a sophisticated infrastructure which is well equipped with all the advanced machinery and backed by highly professional team of experts, holding years of experience in this field. They are also trained from time to time to stay aware of the growing demands of the industry and new changes. Our machinery is well maintained to keep it in good working condition and is upgraded when required to keep our service range matched as per the industry norms and ethics. We have been achieved our goal under proper guidance of our mentor,...
