

# New Ghosh Industries

<https://www.indiamart.com/newghosh/>

We are one of the renowned manufacturers and exporters of a wide range of Laboratory Testing and Surveying Instruments for Cement, Soil, Bitumen, Cement and Concrete. These are reckoned for their precise dimensions and accurate test result.

## About Us

Based at Kolkata, West Bengal, India, we, “**New Ghosh Industries,**” are one of the leading manufacturers and exporters of a wide range of **Laboratory Testing and Surveying Instruments for Cement, Soil, Bitumen, Cement and Concrete.** Our range is renowned for its high end features such as low maintenance, accurate output and longer working life. We make use of quality light fittings for making these instruments. These fittings are mounted with stainless steel cloth/perforated sheet and in any other form as desired by our clients. Our range is fabricated using advanced technology and methodology that enable us to offer quality laboratory testing and surveying instruments. Stringent checking is also conducted on well defined quality parameters such as performance, design and working life, so that defect free range is dispatched to the clients. With the help and support of our team, we have been able to provide technical support, customer service and after sales service to our valued clients. Being a 100% export inclined company, sound management practices at each stage are maintained, so that trouble free operations take place. Moreover, our client centric approach and emphasis on providing complete quality has enabled us in gaining an edge over our competitors across the globe.

# LABORATORY TESTING EQUIPMENT

Unconfined Compression Tester

Laboratory Vane Shear Apparatus

Load Frame Electrically Operated

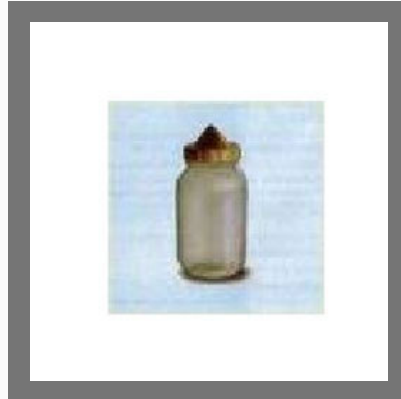

Field Density Test Apparatus

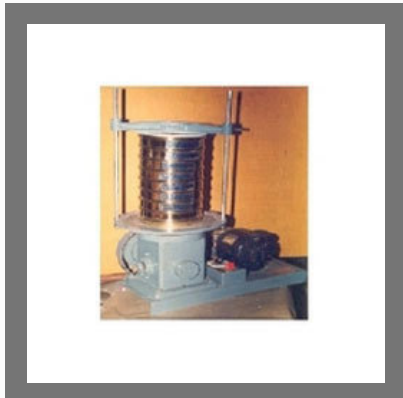

# TESTING EQUIPMENT

Direct Shear Apparatus

Gas Pycnometer

Sieve Shaker

Pocket Penetrometer Pock

# SOIL TESTING INSTRUMENTS

Sampling Augers

Liquid Limit Device

Proctor Compaction  
Apparatus

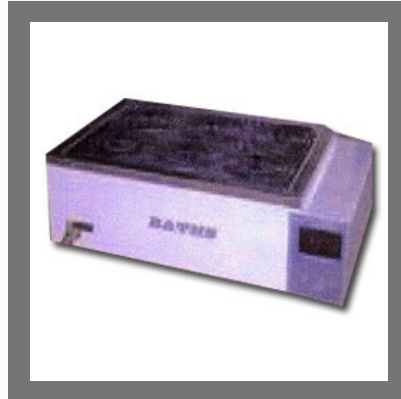

Proving Ring

# LABORATORY INSTRUMENTS

Ovens Laboratory Type  
(electric)

Water Bath Electric

Dames And Moor Sampler

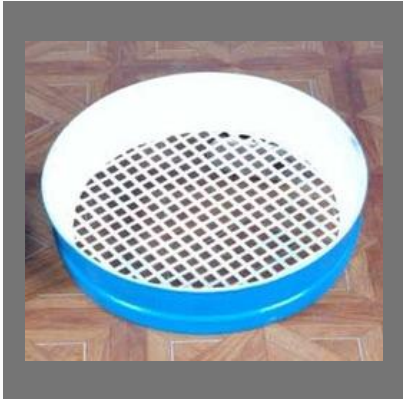

Balance Machine

# TEST SIEVES

Test Sieves

Perforated Sieves

Stainless Steel Test Sieves

## BITUMEN TESTING INSTRUMENTS

Bitumen Extractor

Standard Penetrometer

Cone Penetrometer

## OTHER PRODUCTS:

Field Vane Shear Test Apparatus

Split Spoon Sampler

Extractor Frauniversal

Aggregate Impact Tester

# Factsheet

Year of Establishment : 1977

---

Nature of Business : Exporter

---

Total Number of Employees : 11 to 25 People
