## About Us

Sensing the potential on the global front, Nicomet Industries Limited , was conceived in the year 1993 to meet the demand for high purity Nickel & Cobalt Metal and their derivatives. The promoters with over 25 years of experience in trade of metals in the Industry and with their drive for excellence, have succeeded in establishing Nicomet as a reliable source for specialty products of these metals in India. Nicomet has the privilege of being the Pioneer in manufacture of Cobalt and Nickel Metal in India and is the only company manufacturing Nickel in India. Nicomet uses hydrometallurgy solvent extraction technology for production of Nickel and Cobalt metals and their derivatives. This technology was fully developed in-house by the promoters with the help of technocrats employed by the Company. Nicomet has invested in a robust R&D facility to support its endeavor of technological advancement and improving plant operation. Nicomet employs electro winning process for extraction of Nickel and Cobalt Metal.
