

# N K Engineering Works

<https://www.indiamart.com/nkengineeringworks-ghaziabad/>

We are indulged in Manufacturing a range of Bending Machine, Straightening Machine, Shearing Machine, Cutting Machine, etc. Additionally, we also provide Pipe Bending Job Works, Fabrication Work and Beam Fabrication to our precious clients.

## About Us

Established in the year **1990**, **NK Engineering Works** is the foremost **Manufacturer of Bending Machine, Straightening Machine, Shearing Machine, Cutting Machine, Rope Work**, etc.

Additionally, we also provide **Pipe Bending Job Works** and **Beam Fabrication** to our precious clients. Having more than 35 years of experience in the competitive field of industrial products, we are operating with the flexibility necessary for today's "on-time" delivery, while maintaining the best quality in the industry. Some of our clients are still working with us since our inception maintaining a long-term relationship with clients is the policy of the company. We are recognized for our technical expertise and ability to provide custom designed products to meet the unique requirements of a broad range of industries. Since our inception, we have one overriding commitment to provide personalized creative engineering service to the customers. The scope of our products, the depth of our technical knowledge and wealth of experience serves to bring you the most effective equipment available today.

In our endeavor to offer the best solutions to our customers, we entered into a strategic alliance with many process consultants & engineering experts. We constantly upgrade our equipment with the latest technology. This has gone a long way in helping us to exchange information on the latest technologies, developments and in working...
