About Us

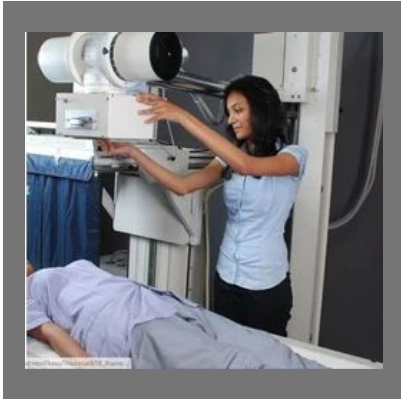

NM Medical (Unit of Rahu Health & Medical Tourism Pvt Ltd) is the pioneer of radiology, cardiology, pathology, and preventive health checkups in a diagnostic centre setting in India. In the 1980s, NM Medical was the first to introduce Ultrasound into the private practice domain. In the 1990s, NM Medical introduced preventive cardiology and pathology into the diagnostic centre model as also CT Scan and MRI for the first time outside a hospital setup. In the 2000s NM Medical introduced the concept of corporate health checkups, which was then replicated by many other institutes but never with comparable success to as no other centre possesses the complete set of facilities that NM Medical offers under one roof with the requisite level of service expertise.
